ECOTOURISM

Stirling Range Retreat is a genuine ecotourism destination and cannot have guests cats or dogs. Kindly report the sighting of feral cats and foxes to the office.

Our network of Nature Observation Trails through our conserved habitat is for the enjoyment of guests and the protection of native flora and fauna.

Did you know, the Retreat receives as much rain in a year as Byron Bay (rainforest country QLD) receives in a night! Native seedlings which survive this harsh climate are self-propagated from parent plants which have adapted to the harsh climate over thousands of generations. By staying on well-defined trails, this reduces the likelihood of seedlings being trampled.

Thank you for helping us conserve the Retreat's native habitat.

These details are provided with the understanding that Tony & Ayleen Sands are the proprietors of Stirling Range Retreat.

Western Australian Tourism Awards 2009: Finalist in Qantas Award for Excellence in Sustainable Tourism.
Stirling Range Retreat is a genuine ecotourism experience. The Retreat and the Orchid and Wildflower Tours achieved Ecotourism Accreditation in 2001. Accredited with National Tourism Accreditation Program. TCWA-ASW-4.412-0016.
